Community Foundation's *Youth in Philanthropy* Program distributes \$10,000 through Southeastern Alberta Schools

Every year, the CFSEA works with area student leadership groups through their Youth in Philanthropy Program. Students research various charities as part of learning about philanthropy, community need and challenges faced by the not-for-profit sector. Charities are then selected by the students to receive grants made possible through the Youth Endowment Fund at the Community Foundation.

This year, five schools from around the area participated in the program which benefitted nine different organizations. The total given from The Community Foundation through the Youth in Philanthropy Program was \$10,000.00. Please see the attached summary for details and photos from the five participating schools.

For more information about the Youth in Philanthropy Program or The Community Foundation, please contact Chris at 403-527-9038 or via email at chris@cfsea.ca.
